## Jewellery Design

A 3rd-year NIFT Patna student, I'm passionate about creating innovative jewelry by blending trends with unique designs. Eager to learn and grow, I strive to refine my skills and make a mark in the industry.

### Why Me !!

I excel at blending innovation with trends to create unique, market-ready designs. Adaptable and focused on balancing aesthetics with functionality, I align with modern jewelry demands, driving creativity and excellence.

### Objective

As a designer, my goal is to integrate my understanding of Lifestyle Product design into the realm of jewelry design, translating creative concepts into innovative and practical creations. I am dedicated to identifying impactful challenges and designing pieces that beautifully balance style and utility, bringing meaning and elegance to daily life.

### Work Experience

I have done a one-month internship with google coursera.

Researched and documented on folk art - Manjusha Art.

Worked on a project related to Sustainability .

I have done an internship with google caratLane.
